OK we will do so. If for some reason it ticks down again like yesterday's PM session it may be difficult to complete the full size but will watch it closely so as to avoid that best possible.

Understood. We will short the remaining approx \$13.4 mm USD balance in the PM session.

This will bring us to an approx total short of \$134.2 mm USD (550,226,000 shs).

I changed my mind.

Short remainder in the PM pls.
